OBJECTIVE

To leverage my expertise in React.js and passion for creating immersive user interfaces, while also using my skills in Node.js, Express, and MongoDB as a full-stack developer. Committed to building responsive UI components, optimizing performance, and following coding standards. Dedicated to continuous learning and staying updated with best practices in full-stack development, contributing effectively in a dynamic team environment.

TECH-STACK

- Proficiency in HTML5, CSS, JavaScript, Bootstrap and Tailwind libraries.
- Enhancing knowledge of ReactJS, NodeJS, ExpressJS, and MongoDB through advanced concepts and project development.
- Proficient in using Git for version control and GitHub for repository management.
- Experience in deploying and hosting web pages using Render and Vercel platforms.
- Currently advancing skills in CI/CD concepts.
- Harnessing the power of AI tools for comprehensive code understanding and breakdown, fostering continuous learning and innovation.

PERSONAL PROJECTS

Food-App Prototype – UI
